

## MARK-IT!

An all-in-one spirit level, rule and marker, this unique, easy to use tool enables the marking of two perfectly plumb or level points at the correct distance apart, within seconds. It is quick and accurate and minimises mistakes. It has many uses, both professional and DIY, including fitting kitchen cabinets, wall light fittings, fixing sinks and bathroom accessories, aligning shelves and fixing pictures.

### MARK-IT! SPECIFICATION

- Three rapid action sliders with marking points for precise measuring and marking.
- Two fixed marking points in each end-piece, 100mm and 35mm from the "0" point on the scale respectively. Cursors on all marking points ensure accuracy.
- Top and bottom rules constructed from silver anodised aluminium. Scuff resistant scale with cm and mm markings on both sections.
- Top scale begins on the left, bottom scale on the right to enable measurements to be made from either side.
- Ends constructed from tough ABS, with horizontal tube vial at one end, plumb tube vial at the other. Acrylic vials are shatterproof and guaranteed against leakage for life.
- Individual hanging packs.
